Lightspeed Alert™

Prevent suicides, cyberbullying, and violence

Lightspeed Alert™ is an early-warning threat detection solution to help schools prevent suicides, bullying, and school violence.

- Our extended cloud integrations and smart agents scan and detect concerning online indicators and send detailed reports to designated staff for timely intervention. Extended cloud integrations enable schools to detect these threats across Microsoft® 365 and Google® productivity apps.

- Our patented AI technology and 24/7/365 human review work seamlessly together to analyze alerts and escalate imminent threats in real-time for appropriate intervention.

- Lightspeed Safety Specialists, with backgrounds in law enforcement, investigation, and mental health, receive further threat assessment and suicide prevention training.

How it works

1

SOPHISTICATED AI SCANS FOR WARNING SIGNS

AI technology scans and flags concerning indicators and sends alerts to designated district safety staff as well as Lightspeed Safety Specialists.
2

SAFETY SPECIALISTS CONDUCT THREAT ASSESSMENT

Our 24/7/365 in-house team of highly-trained safety specialists evaluate all alerts to identify cases of imminent threats to student safety.
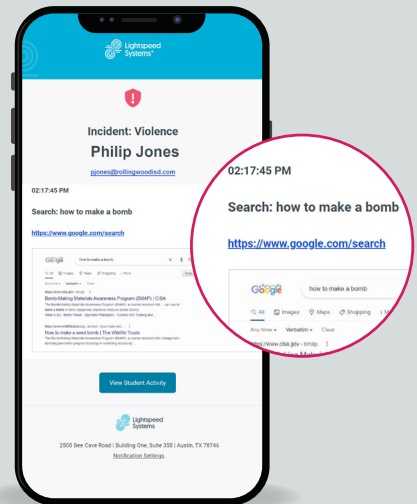

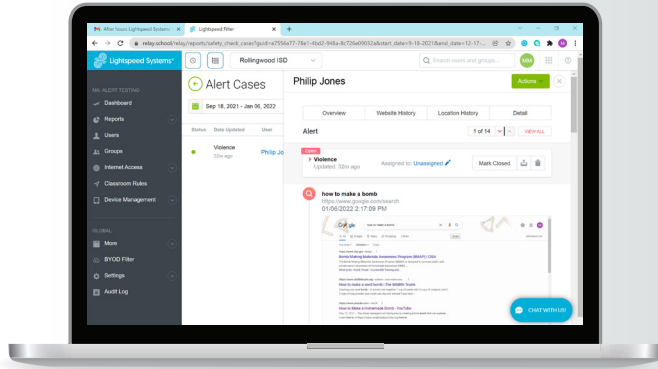

3

If a threat is deemed imminent, safety specialists immediately escalate to chosen members of staff and/or law enforcement, alleviating schools from the need to monitor alerts 24/7 and enabling intervention before an incident occurs.
